ALL IN READINESS FOR SALVATION ARMY DRIVE

All is in readiness for the start of the campaign which the Salvation Army with the assistance of the National, the State and County Committees will conduct throughout this part of the country. The campaign has been put over in the East, in California, and Colorado, and now the state of Missouri and Kansas are going to show their real appreciation of what the Salvation Army has done for our boys in the field of battle.

The local committee in charge of the drive in this county has every district lined up and every one is ready for the start on the opening day. It is not necessary for the people to be told what the Salvation Army is, for we know what they did for our boys in the devastated fields of France. You always found them where they were most needed and the battle was the hottest. They only wished to be where they could serve the boys best.

In announcing the purpose of the campaign, the Salvation Army says that the term Home Service should be almost self-explanatory. Home Service in the Salvation Army meaning of the term, includes all the familiar activities of the Salvation Army, such as, rescue homes for fallen girls, day nurseries, lodging houses for unfortunate men, children's homes, fresh air farms, free clinics, prison relief, slum settlements, homes for the aged, hotels for men and women, free employment bureaus and many other similar institutions at which human distress is relieved.

The Salvation Army has announced that it has made specific plans for continuing these activities on a larger scale in the future, and it is for this purpose that the people of the United States, are being asked give the $13,000,000 which will be the groundwork upon which the proposed great future structure of relief work may be built. The Committee in this county is as follows:

F. P. Robinson, chairman; John Mutz, secretary; Nick Sturm and R. F. Hamblin.

MARYVILLE WATER SYSTEM FAILS AGAIN YESTERDAY

Another instance which illustrates the dire necessity for an immediate improvement in the water supply system of Maryville occurred yesterday afternoon when a break in the main near the Fair grounds resulted in a total lack of water and fire protection for almost six hours last night.

Mayor Garrett was informed of the break in the main line about 3 o'clock yesterday afternoon and when he arrived on the scene the water was gushing forth in a literal torrent from the broken pipe. He gathered a group of workmen at once, and ordered that the water be shut off at the First street valve. This was easier said than done, however, as the top of the valve was broken and it was necessary to take out the greater part of the connection before the supply could be shut off.

By the time the work was accomplished and the repair to the break had been made, it was well near 11 o'clock.

In the meantime the standing supply at the tower became exhausted about 7 30 and the city was without water during the interim.

The Electric Light and Power Company was unable to keep their generators working a full capacity during the time the water was off and for several hours the street lights were out.

Mr. and Mrs. George M. McKnight and family of Longmont, Colo., are visiting at the home of Mr. McKnight's sister, Mrs. T. H. Cook and family. They made the trip here in their car.

ASSAULT CASE UP IN POLICE COURT

JOHN AND SAM BITHHOS AND N. HILL ARRAIGNED

JURY OUT AT 2:30 P. M.

Entire Morning Session Taken up with Jury Selection and Examination of Witnesses.

BULLETIN.

Sam and John Bithos were acquitted by the jury at 4:25 o'clock this afternoon; Nicholas Hill fined $1. The jury was out one hour and fifty-five minutes before a decision was reached.

The case of the city of Maryville against John and Sam Bithos and Nicholas Hill, charged with common assault on the person of John Mopday last Tuesday evening, was being tried before Judge W. L. Johnson, in the police court today.

City attorney Fred Harvey presented the case for the city while W. G.. Sawyers and M. E. Ford acted as attorneys for the defense.

The case went to the jury at 2:30 o'clock this afternoon.

The facts in the case as brought out in the testimony of the various witnesses in brief are as follows: On last Saturday George Monday, 404 East First St., a traveling salesman, went into the Superior Cleaning Co.'s place of business to get a hat that had been left there previously to be cleaned, having been told that it would be ready at that time. Sam Bithos, who waited upon Mr. Monday, found that the hat had been cleaned and had been sent to Barnard by mistake and explained to Mr. Monday that he was sorry that the mistake had been made and that he would write to Barnard and have the hat returned immediately. Monday answered that he wasn't responsible for their —— mistakes and was coming back Tuesday for that hat.

Tuesday evening about 7 o'clock Monday returned to the establishment to get his hat and Sam Bithos was again in charge, waiting upon a customer, Robert Fields. No one else was in the front part of the shop except Nicholas Hill, another one of the workers who was working in the rear part of the building. Mr. Monday asked if his hat had returned and Sam replied that he had written to Barnard and expected the hat back most any time and that if it was not back by Saturday that he would pay him what the hat was worth. Mr. Monday insisted that he wanted the hat and Sam repeated that he couldn't return the hat at that time. Then Monday according to the defendants testimony called Sam a—— and struck him, knocking him into the window and beating him, while Monday claimed that the attack was provoked by a curse from Bithos. At this time Hill who was in the back part of the building came running up and pulled Monday off Sam and pushed him toward the door. There is some question as to whether Hill struck Monday with a stool or hat stand while Monday was engaged in beating Sam, Monday testifying that he was so struck, and Sam Bithos and Hill testifying that no such thing was done.

Monday got outside and invited the two Greeks out to finish the fight but they did not go out. Then Monday walked on up the street where he met John Bithos coming down from his room over the cleaning establishment. Sam Bithos, standing inside the doorway, yelled to John that Monday had broken the window and for him to call Mr. Ford and make him pay for it. John Bithos turned to Monday and questioned him concerning the trouble who replied that he couldn't get his hat and asked John if he belonged to that —— Dago bunch, which was resented and the two went into a clinch. The fighting continued to the middle of the street where the two went down to the pavement. It seems that Sam Bithos and Nicholas Hill went out to the two, fighting, to separate the two, they say, while Monday claims they struck him. The fight was stopped by Charles McCaffrey.

The jury which sat in the case was composed of the following men: James Cummins, F. W. White, John Mutz, John Beam, George Hartley, and Frank A. Turner. The witnesses besides the prosecuting witness and the defendants were Dr. Bell, Frank Shoemaker, Ab Mercer, Harry Carstens, Robert Bramble, Robert Field, L. E. Anderson and Miss Johnson.

Timely Bug Warnings

Don't let the bugs get the best of you. Prof. C. C. Leeson, entomologist at the State Teachers College is solving somebody's bug problems nearly every day of the season and solicits inquiry from anybody else who is in trouble with the bugs. The following suggestions may be timely:

Let the hogs clean up your army worms. If you have an infested hay crop cut it down before the army worm does it for you and turn in the hogs before the hay is cured. If you haven't any hogs borrow your neighbor's. If you haven't any fence get a boy to herd the hogs. Scatter poison bran mash at the edge of other crops to keep them out, or, if the hog remedy can't be had on your hay field, scatter the mash after the hay is removed, otherwise the hungry bugs will mature and breed you another army for fall. The mash should be spread late in the after noon so that it won't dry and the bugs can get it in the cool of the day and at night when they do most of their eating. The formula follows: 25lbs bran, 1lb. Paris Green, six mashed lemons, 2 qts. molasses, 4 gal. water.

Watch for the long striped beetles on the potatoes as they will clean up a patch in a few days when they get started. Use Paris Green liberally, 1 teaspoon to 3 gallons water.

The roses that are being eaten up all over the city can be protected by the same mixture of Paris Green.

Destroy the fallen apples or let the hogs do it for you as the worms in them will mature and start a hundred more worms later.

The best handy poison mixture is to use 10 parts air slacked lime to one part Paris Green and keep ready for use in a tin can with cover and small sifting holes punched in the bottom.

The bug problems are too numerous to list but too important to neglect. Call "The Bug Man" State Teachers College or phone 4659 Hanamo for further information.

WAR SERVICE FOR WOMEN
REQUIRES HEALTH AND STRENGTH

When was there ever a time when women were doing so much for mankind—and when was the health and strength of our women more vital to the very existence of our country. We can safely say **Never.** Their sacrifices, their industry, their courage, their patriotism is beautiful beyond words of description. But what of the poor one who wants to help but cannot because she is oppressed by some feminine disorder. To such we recommend with utmost confidence our successful old remedy and insert following a letter from one who proved its value.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 South 14th Street, Newark, N.J.

The reason this famous root and herb remedy was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition.

Twenty Minutes to Market

If you could drive five or six miles to your nearest shipping point with a load of hogs, corn, hay or other produce in twenty minutes—what would it be worth to you.

That's what you will be doing some day with a motor truck. But before you buy a truck you should consider the economy of getting one that will "stand up" under all the different kinds of work you will want it to do.

The SANDOW TRUCK

Is a heavy duty truck—light for its strength but having extra stamini in every part, because every item of its construction is made as good as possible.

THE SANDOW is not the cheapest truck on the market, but for trucks of its class it is the lowest priced—still maintaining pre-war prices.

THE SANDOW is made in any size you want—1, 1¼, 1½, 2, 2½ and 5 ton capacities.

The two-ton special is an ideal farm truck for Northwest Missouri, because it is made extra strong but light and will go anywhere that a team and wagon will go, and carry twice the load at much less hauling cost—and it doesn't eat when it isn't working.

THE SANDOW is an absolutely dependable truck, that has been tested by hard usage in the hands of hundreds of heavy duty truck users in both city and country all over the United States. It is no experimental product, but a machine worth every dollar you put into it.

Let us give you a practical demonstration of the Sandow.

Heading Bluegrass.

Ten teams drawing bluegrass headers are busy at work on the Linville farm north of town and as a result of their labors about 500 bushels or more of seed is being harvested daily.

The work is in charge of Mrs. J. F. Kellogg, of the Kellogg Seed Co., and some 800 acres of bluegrass on the Linville farms will be stripped.

It is estimated that from five to eight bushels of seed will be harvested from each acre and it is thought that from 4,000 to 6,500 bushels of seed will be garnered when the heading has been finished.

Bluegrass has made a heavy growth this season and crops are being harvested by others aside from the Kellogg force.—Skidmore News.

DELL NEVER FELT BETTER, HE SAYS

Denver Man Takes Tanlac—Is Relieved After Two Years' Suffering.

For the first time in two years I am feeling strong and well again, and it was nothing but Tanlac that fixed me up," said George M. Dell, of 1357 Thirteenth street, Denver, Colo.

"I don't know what was the the matter with me," he continued, "but I had lost my appetite and the little I forced down failed to digest and I suffered terribly with gas on my stomach. There was a constant pain in my back, and my legs and feet would swell so at times that I couldn't put on my shoes. My kidneys forried me so much I never could get a good night's rest. I felt tired and worn out all the time, the medicine I took did me no good and I got into such an awful fix that I had to lay off from work as much as three days at a time, and when I did go to work it was all I could do to get through the day.

"Tanlac was recommended to me so strongly that I decided to try it and my first bottle brought my appetite back. I have been entirely relieved of that pain and bloating, my kidneys don't bother me any more, I sleep like a log and can do as good a day's work as anybody, in fact I never felt better in my life than I do right now."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burington Junction, Mo., and in Barnard, by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley; Ravenwood by C. A. Shunk. —Adv.

Steal Booze From Depot.

The depot was entered Monday night and four quarts of whiskey and 215 pennies taken. Entrance was gained by prying open the window. The robbery was discovered Tuesday morning when the agent went on duty. A representative of the express company was here Tuesday looking into the matter.

The local Standard Oil Station was entered the same night and ten gallons of Polarine lubricating oil taken. Local officers immediately notified Sheriff Dowden who came to Burlington Junction with Prosecuting Attorney McCaffrey. No information was given as to whether or not any clues were discovered.

Robbing the depot when a cargo of wet goods is stored therein seems to be a habit of somebody with a mighty dry whistle.—Burlington Junction Post.

So Big And Yet So Small!

Seen by itself, Swift & Company is one of the largest manufacturers and distributers of animal food products in the country.

Seen in relation to the total food business of the world, its size diminishes to small proportions.

We handle only about 22 per cent of the total output of the hundreds of packing plants under federal inspection, and only about 12 per cent of the total meat supply of the nation.

We handle only about 6 per cent of the total quantity of butter, eggs, and poultry sent to market in the United States.

Our tanneries handle less than 15 per cent of the hides made into leather in the United States.

Our soap factories make less than 10 per cent of the soap output of the nation.

This is done in keen and open competition with every concern handling these products, and at a profit of a fraction of a cent per pound.

In the meat packing industry there is no one dominant concern handling a large proportion of the output.

ALL IN READINESS FOR SALVATION ARMY DRIVE

All is in readiness for the start of the campaign which the Salvation Army with the assistance of the National, the State and County Committees will conduct throughout this part of the country. The campaign has been put over in the East, in California, and Colorado, and now the state of Missouri and Kansas are going to show their real appreciation of what the Salvation Army has done for our boys in the field of battle.

The local committee in charge of the drive in this county has every district lined up and every one is ready for the start on the opening day. It is not necessary for the people to be told what the Salvation Army is, for we know what they did for our boys in the devastated fields of France. You always found them where they were most needed and the battle was the hottest. They only wished to be where they could serve the boys best.

In announcing the purpose of the campaign, the Salvation Army says that the term Home Service should be almost self-explanatory. Home Service in the Salvation Army meaning of the term, includes all the familiar activities of the Salvation Army, such as, rescue homes for fallen girls, day nurseries, lodging houses for unfortunate men, children's homes, fresh air farms, free clinics, prison relief, slum settlements, homes for the aged, hotels for men and women, free employment bureaus and many other similar institutions at which human distress is relieved.

The Salvation Army has announced that it has made specific plans for continuing these activities on a larger scale in the future, and it is for this purpose that the people of the United States, are being asked give the $13,000,000 which will be the groundwork upon which the proposed great future structure of relief work may be built. The Committee in this county is as follows:

F. P. Robinson, chairman; John Mutz, secretary; Nick Sturm and R. F. Hamblin.

The addresses of the afternoon will be given by Judge W. K. James of St. Joseph, and Rev. R. E. Snodgrass of this city. Both speakers will announce the subject of their talks at the meeting, and will probably take up in part the idea of community spirit and the co-operative plan.

MARYVILLE WATER SYSTEM FAILS AGAIN YESTERDAY

Another instance which illustrates the dire necessity for an immediate improvement in the water supply system of Maryville occurred yesterday afternoon when a break in the main near the Fair grounds resulted in a total lack of water and fire protection for almost six hours last night.

Mayor Garrett was informed of the break in the main line about 3 o'clock yesterday afternoon and when he arrived on the scene the water was gushing forth in a literal torrent from the broken pipe. He gathered a group of workmen at once, and ordered that the water be shut off at the First street valve. This was easier said than done, however, as the top of the valve was broken and it was necessary to take out the greater part of the connection before the supply could be shut off.

By the time the work was accomplished and the repair to the break had been made, it was well near 11 o'clock.

In the meantime the standing supply at the tower became exhausted about 7:30 and the city was without water during the interim.

The Electric Light and Power Company was unable to keep their generators working a full capacity during the time the water was off and for several hours the street lights were out.

Mr. and Mrs. George M. McKnight and family of Longmont, Colo., are visiting at the home of Mr. McKnight's sister, Mrs. T. H. Cook and family. They made the trip here in their car.

ASSAULT CASE UP IN POLICE COURT

JOHN AND SAM BITHHOS AND N. HILL ARRAIGNED

JURY OUT AT 2:30 P. M.

Entire Morning Session Taken up with Jury Selection and Examination of Witnesses.

BULLETIN.

Sam and John Bithos were acquitted by the jury at 4:25 o'clock this afternoon; Nicholas Hill fined $1. The jury was out one hour and fifty-five minutes before a decision was reached.

The case of the city of Maryville against John and Sam Bithos and Nicholas Hill, charged with common assault on the person of John Monday last Tuesday evening, was being tried before Judge W. L. Johnson, in the police court today.

City attorney Fred Harvey presented the case for the city while W. G. Sawyers and M. E. Ford acted as attorneys for the defense.

The case went to the jury at 2:30 o'clock this afternoon.

The facts in the case as brought out in the testimony of the various witnesses in brief are as follows: On last Saturday George Monday, 404 East First St., a traveling salesman, went into the Superior Cleaning Co.'s place of business to get a hat that had been left there previously to be cleaned, having been told that it would be ready at that time. Sam Bithos, who waited upon Mr. Monday, found that the hat had been cleaned and had been sent to Barnard by mistake and explained to Mr. Monday that he was sorry that the mistake had been made and that he would write to Barnard and have the hat returned immediately. Monday answered that he wasn't responsible for their —— mistakes and was coming back Tuesday for that hat.

Tuesday evening about 7 o'clock Monday returned to the establishment to get his hat and Sam Bithos was again in charge, waiting upon a customer, Robert Fields. No one else was in the front part of the shop except Nicholas Hill, another one of the workers who was working in the rear part of the building. Mr. Monday asked if his hat had returned and Sam replied that he had written to Barnard and expected the hat back most any time and that if it was not back by Saturday that he would pay him what the hat was worth. Mr. Monday insisted that he wanted the hat and Sam repeated that he couldn't return the hat at that time. Then Monday according to the defendants testimony called Sam a—— and struck him, knocking him into the window and beating him, while Monday claimed that the attack was provoked by a curse from Bithos. At this time Hill who was in the back part of the building came running up and pulled Monday off Sam and pushed him toward the door. There is some question as to whether Hill struck Monday with a stool or hat stand while Monday was engaged in beating Sam, Monday testifying that he was so struck, and Sam Bithos and Hill testifying that no such thing was done.

Monday got outside and invited the two Greeks out to finish the fight but they did not go out. Then Monday walked on up the street where he met John Bithos coming down from his room over the cleaning establishment. Sam Bithos, standing inside the doorway, yelled to John that Monday had broken the window and for him to call Mr. Ford and make him pay for it. John Bithos turned to Monday and questioned him concerning the trouble who replied that he couldn't get his hat and asked John if he belonged to that —— Dago bunch, which was resented and the two went into a clinch. The fighting continued to the middle of the street where the two went down to the pavement. It seems that Sam Bithos and Nicholas Hill went out to the two, fighting, to separate the two, they say, while Monday claims they struck him. The fight was stopped by Charles McCaffrey.

The jury which sat in the case was composed of the following men: James Cummins, F. W. White, John Mutz, John Beam, George Hartley, and Frank A. Turner. The witnesses besides the prosecuting witness and the defendants were Dr. Bell, Frank Shoemaker, Ab Mercer, Harry Carstens, Robert Bramble, Robert Field, L. E. Anderson and Miss Johnson.

Timely Bug Warnings

Don't let the bugs get the best of you. Prof. C. C. Leeson, entomologist at the State Teachers College is solving somebody's bug problems nearly every day of the season and solicits inquiry from anybody else who is in trouble with the bugs. The following suggestions may be timely:

Let the hogs clean up your army worms. If you have an infested hay crop cut it down before the army worm does it for you and turn in the hogs before the hay is cured. If you haven't any hogs borrow your neighbor's. If you haven't any fence get a boy to herd the hogs. Scatter poison bran mash at the edge of other crops to keep them out, or, if the hog remedy can't be had on your hay field, scatter the mash after the hay is removed, otherwise the hungry bugs will mature and breed you another army for fall. The mash should be spread late in the after noon so that it won't dry and the bugs can get it in the cool of the day and at night when they do most of their eating. The formula follows: 25lbs bran, 1lb. Paris Green, six mashed lemons, 2 qts. molasses, 4 gal. water.

Watch for the long striped beetles on the potatoes as they will clean up a patch in a few days when they get started. Use Paris Green liberally, 1 teaspoon to 3 gallons water.

The roses that are being eaten up all over the city can be protected by the same mixture of Paris Green.

Destroy the fallen apples or let the hogs do it for you as the worms in them will mature and start a hundred more worms later.

The best handy poison mixture is to use 10 parts air slacked lime to one part Paris Green and keep ready for use in a tin can with cover and small sifting holes punched in the bottom.

The bug problems are too numerous to list but too important to neglect. Call "The Bug Man" State Teachers College or phone 4659 Hanamo for further information.

WAR SERVICE FOR WOMEN
REQUIRES HEALTH AND STRENGTH

When was there ever a time when women were doing so much for mankind—and when was the health and strength of our women more vital to the very existence of our country. We can safely say Never. Their sacrifices, their industry, their courage, their patriotism is beautiful beyond words of description. But what of the poor one who wants to help but cannot because she is oppressed by some feminine disorder. To such we recommend with utmost confidence our successful old remedy and insert following a letter from one who proved its value.

Newark, N.J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 South 14th Street, Newark, N.J.

The reason this famous root and herb remedy was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition.

Twenty Minutes to Market

If you could drive five or six miles to your nearest shipping point with a load of hogs, corn, hay or other produce in twenty minutes—what would it be worth to you.

That's what you will be doing some day with a motor truck. But before you buy a truck you should consider the economy of getting one that will "stand up" under all the different kinds of work you will want it to do.

The SANDOW TRUCK

Is a heavy duty truck—light for its strength but having extra stamini in every part, because every item of its construction is made as good as possible.

THE SANDOW is not the cheapest truck on the market, but for trucks of its class it is the lowest priced—still maintaining pre-war prices.

THE SANDOW is made in any size you want—1, 1¼, 1½, 2, 2½ and 5 ton capacities.

The two-ton special is an ideal farm truck for Northwest Missouri, because it is made extra strong but light and will go anywhere that a team and wagon will go, and carry twice the load at much less hauling cost—and it doesn't eat when it isn't working.

THE SANDOW is an absolutely dependable truck, that has been tested by hard usage in the hands of hundreds of heavy duty truck users in both city and country all over the United States. It is no experimental product, but a machine worth every dollar you put into it.

Let us give you a practical demonstration of the Sandow.

Heading Bluegrass.

Ten teams drawing bluegrass headers are busy at work on the Linville farm north of town and as a result of their labors about 500 bushels or more of seed is being harvested daily.

The work is in charge of Mrs. J. F. Kellogg, of the Kellogg Seed Co., and some 800 acres of bluegrass on the Linville farms will be stripped.

It is estimated that from five to eight bushels of seed will be harvested from each acre and it is thought that from 4,000 to 6,500 bushels of seed will be garnered when the heading has been finished.

Bluegrass has made a heavy growth this season and crops are being harvested by others aside from the Kellogg force.—Skidmore News.

DELL NEVER FELT BETTER, HE SAYS

Denver Man Takes Tanlac—Is Relieved After Two Years' Suffering.

For the first time in two years I am feeling strong and well again, and it was nothing but Tanlac that fixed me up," said George M. Dell, of 1357 Thirteenth street, Denver, Colo.

"I don't know what was the the matter with me," he continued, "but I had lost my appetite and the little I forced down failed to digest and I suffered terribly with gas on my stomach. There was a constant pain in my back, and my legs and feet would swell so at times that I couldn't put on my shoes. My kidneys forried me so much I never could get a good night's rest. I felt tired and worn out all the time, the medicine I took did me no good and I got into such an awful fix that I had to lay off from work as much as three days at a time, and when I did go to work it was all I could do to get through the day.

"Tanlac was recommended to me so strongly that I decided to try it and my first bottle brought my appetite back. I have been entirely relieved of that pain and bloating, my kidneys don't bother me any more, I sleep like a log and can do as good a day's work as anybody, in fact I never felt better in my life than I do right now."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction; H. M. Lincoln, Pickering, and Carter Pharmacy, Burington Junction, Mo., and in Barnard, by Bear Drug Store, in Elmo by King Drug Co., and in Clearmont by Dr. W. H. Wiley; Ravenwood by C. A. Shunk. —Adv.

Will Have 20 Days Rain in June.

Jim Lucas, township trustee, is authority for the statement that we will have twenty days of rain during the month of June. He bases his opinion on the fact that the new moon came in on June 1. He says that his father always noticed that the sign never failed and Jim has only five days to go on before it will be fulfilled this time, it having rained fifteen days already.—Barnard Bulletin.

Steal Booze From Depot.

The depot was entered Monday night and four quarts of whiskey and 215 pennies taken. Entrance was gained by prying open the window. The robbery was discovered Tuesday morning when the agent went on duty. A representative of the express company was here Tuesday looking into the matter.

The local Standard Oil Station was entered the same night and ten gallons of Polarine lubricating oil taken. Local officers immediately notified Sheriff Dowden who came to Burlington Junction with Prosecuting Attorney McCaffrey. No information was given as to whether or not any clues were discovered.

Robbing the depot when a cargo of wet goods is stored therein seems to be a habit of somebody with a mighty dry whistle.—Burlington Junction Post.

So Big And Yet So Small!

Seen by itself, Swift & Company is one of the largest manufacturers and distributers of animal food products in the country.

Seen in relation to the total food business of the world, its size diminishes to small proportions.

We handle only about 22 per cent of the total output of the hundreds of packing plants under federal inspection, and only about 12 per cent of the total meat supply of the nation.

We handle only about 6 per cent of the total quantity of butter, eggs, and poultry sent to market in the United States.

Our tanneries handle less than 15 per cent of the hides made into leather in the United States.

Our soap factories make less than 10 per cent of the soap output of the nation.

This is done in keen and open competition with every concern handling these products, and at a profit of a fraction of a cent per pound.

In the meat packing industry there is no one dominant concern handling a large proportion of the output.
